

# Wiston Pond

## Steyping

**OS MAP: TQ163126**

**SAT NAV: BN44 3DA**

**OPEN:** 3rd April to 31st October. Fishing from one hour before sunrise to one hour after sunset. The season may be extended if conditions allow. Please see the Trout Section Code of Conduct for permitted fishing methods.

**DIRECTIONS:** Wiston shares access and parking with Lower Buddington. Access is off the A283, just north-west of Steyping; the A283 joins the A27 at Shoreham to the south or the A24 at Washington to the west. The entrance is on the south side of the road, two miles from the Bramber Castle roundabout at Steyping or 3.2 miles from the Washington roundabout. There is a short approach to the SPS padlocked metal gate – care should be taken as traffic is notoriously fast. Pass the overflow car park inside the gate and drive down across the dam to the Wiston car park, beside the fishing hut compound (*below*).

Wiston Pond, under the South Downs near Steyping, is stocked with rainbow and brown trout. Fly hatches consist of many varieties of buzzers, alder flies, about five different species of sedge, occasional hawthorn flies, plenty of damselfly, a few pond olives, gammarus (shrimps) and on rare occasions, a few mayflies. Prolific daphnia colonies can be present in late Spring and early Summer. Weed growth can be prolific in Summer.

Sign in at the hut in the appropriate book. There are three boats on the water and no bank fishing.

Kindly note that there is no entrance from Mouse Lane to the south and sat nav users should be aware that the postcode reference given above is for a number of properties in the surrounding area and not specifically for the water.
